# Position Assistance

This is a free feature that anyone can use to find out whether to hold any existing position or exit. You can find "Position Assistance" from left side menu panel.

Click on Position Assistance menu and a form will appear as shown below.

The form contain following fields;

⇨ **Select Risk Type:** (Small Risk/Moderate Risk)

It completely depends upon the personality of the trader whether he/she always take small risk or a moderate risk. Based upon the risk management of the trader, positional assistance will try to find proper recommendation on current holding.

⇨ **Script Name:** Type Script name.

Start typing script name and it will auto populate the exact trading symbol name.

⇨ **My Buying Price:** Enter your buying price

Enter your buying price.

Now, click on "Submit" button. The result will be generated for you in few moment.

Result Area:

The result area displays the result based upon your search criteria.

Examples:

Select Risk Type *

| SMALL RISK | ⌄ |

Script Name *

| HDFC |

My Buying Price *

| 2792 |

Can hold.

Max. Stoploss/Trailing Stoploss : **2374.67**

Min. Target : **2749.61**

The above image indicates that, you are in profit. Your **Trailing Stop loss** & Target will appear in the result area.

Holding Score:

Holding Score if bought @ CMP
2499.65: 3/10

Holding score indicates that, if this particular script is bought at Current Market Price (CMP) than the holding score is 3 out of 10 (example).

- Higher holding score (7 & above) indicates good to hold

Holding score for a script is calculated based upon following factors;

⇨ Recent Price Spike
⇨ Recent Volume Spike
⇨ Moving averages (50, 100 & 200)
⇨ Recent Delivery Percentage Spike

Important:

- Positional Assistance is completely based upon technical indication to help a trader to find a clear direction on current holding
- Currently it supports Equity Cash Segment (NSE) only
- Position Assistance should not be used to take new position
- Position Assistance should be used only for recommendation on current holding
- Position Assistance to be checked only after 7.00 PM on trading days, as Exchange EOD data synched with stockyfly.com in between 6.00 PM – 7.00 PM every day basis.
